Profile

I build complete web applications independently or within a team: frontend, backend, or full stack. I define architecture, modernize systems, and mentor developers.

- 18 years of professional experience. 10 years of contract work.
- Development with AI coding agents or without AI assistance.
- B2B contracts: full-time, part-time, or fixed-price. Remote; hybrid in Zagreb.

Core technologies

Development React, TypeScript, Angular, Node.js, NestJS, PostgreSQL

Tools Jest, Docker, Git, Codex CLI, Copilot

Work experience

Independent contractor

Senior software developer

January 2016 – Present

Remote

HVAC monitoring and control

React, TypeScript, MobX

- Built interfaces and controls for a multinational's HVAC monitoring application within an established team.

Warehouse robotics

Angular, TypeScript, RxJS

Robot and fleet management with roughly 100,000 lines of frontend code per repository.

- Independently migrated Angular 8 to 18, resolving over a thousand errors without observed regressions and removing a major security-audit blocker.
- Organized the migration for reuse across related applications and branches.

Oracle Eloqua messaging integration

React, NestJS, TypeScript, MySQL, Jest

SMS and WhatsApp messaging within marketing campaigns.

- Independently built the integration, defined its architecture, and clarified requirements with the client.
- Coordinated asynchronous flows involving hundreds of thousands of messages. Resolved race conditions, implemented multiple authentication protocols, and added extensive backend tests.

Work experience continued

Independent contractor

January 2016 – Present

Mobile fueling operations

Node.js, Express, MongoDB, Angular

A production platform supporting a large mobile fueling company.

- Owned backend subsystems, delivered system-wide changes, and ran production database migrations. Also worked on the Angular administration app.
- Improved testing practices and interviewed, onboarded, and mentored developers.

Graveyard management

Vue, TypeScript, Kotlin, Spring Boot, PostgreSQL

- Built at least 95% of a multi-tenant application with maps and PDF reports. Added frontend unit tests and backend integration tests using Jest and TypeScript.

Earlier employment

APIS IT

November 2013 – May 2016

C# Developer

Zagreb (Croatia)

Implemented seven complete e-Tax forms and contributed to about ten others, covering web interfaces, XML, PDF reports, validation, and data access.

Gemmeus d.o.o.

October 2012 – January 2013

C# Developer

Remote

Developed C# spreadsheet features, including Excel-to-Windows Forms export.

INETEC d.o.o.

November 2009 – October 2012

C# Windows Desktop (WPF) Developer

Zagreb (Croatia)

Built substantial parts of nuclear inspection software: 2D/3D signal charts, multithreaded rendering, signal processing, and persistence.

Ultra d.o.o.

October 2008 – November 2009

C# Windows Desktop and Web Developer

Karlovac (Croatia)

Built a complete Windows Forms application for fuel-dispenser control, including custom controls and SQLite storage.

Ekobit d.o.o.

February 2008 – October 2008

C# Web Developer

Zagreb (Croatia)

Developed ASP.NET and database features for Croatian financial institutions.

Education

Faculty of Electrical Engineering and Computing (FER), University of Zagreb

Graduate Engineer of Computing. Five-year degree program, totaling 284 ECTS credits.
